

# 5<sup>th</sup> World Vitiligo Day

25<sup>th</sup> June 2019

All India Institute of Medical Sciences Bhopal  
MP – 462020, India

Vitiligo causes harmless white patches on the skin. It can occur at all ages in men and women on any part of the body. Vitiligo does not spread by touch or body contact. It is not leprosy. Vitiligo can be treated.

In the event on Vitiligo awareness, treatment options & research at AIIMS Bhopal will be discussed.
