--------------------	---

Dear Colleagues and Students,

AIIMS, Bhopal Microbiology department is observing Fungal Disease Awareness week (FDAW) from 23rd to 27th September 2019 an initiative of CDC.

FDAW was first initiated by CDC, USA in August 2017 with a slogan "Think fungus."

Every year the CDC, FDAW focuses on increasing awareness of fungal diseases in community and doctors.

Environmental changes, accelerated virulence in fungus, changes in host immune status, increasing travel and trade across borders and emergence of antifungal resistance compels us to think about rightly diagnosing and treating fungal infections.

As AIIMS Bhopal observes FDAW for the first time, the organizing committee warmly invites all AIIMS Bhopal Doctors and students to actively participate in the week long events.

The organizing committee of FDAW AIIMS, Bhopal invites Postgraduate students in Microbiology from various institutions for Workshop on Basic Clinical Mycology to be held on 27th September 2019 at AIIMS, Bhopal.

Warm welcome to all for FDAW at AIIMS, Bhopal.

***Organizing committee
FDAW, AIIMS, Bhopal***
