

4thWorld Vitiligo Day

25thJune 2018

All India Institute of Medical Sciences Bhopal
MP – 462020, India

Vitiligo causes harmless white patches on the skin. It can occur at all ages in men and women on any part of the body. Vitiligo does not spread by touch or body contact. It is not leprosy. Some types of vitiligo can be treated.

In this event, we will raise awareness about Vitiligo; address myths, treatment options & research at AIIMS Bhopal.
