

3rd World Vitiligo Day

1st July 2017

All India Institute of Medical Sciences Bhopal
MP – 462020, India

Vitiligo causes harmless white patches on the skin. It can occur at all ages in men and women on any part of the body. Vitiligo does not spread by touch or body contact. It is not leprosy. Some types of vitiligo can be treated.

In this event, we will raise awareness about Vitiligo; treatment options & research at AIIMS Bhopal.
