Chapter-2

Terms and Condition of the Contract

1. Earnest Money Deposit (EMD)

The Bidder shall furnish along with its tender, earnest money for amount as shown in the Schedule of Tender. The earnest money is required to protect the purchaser against the risk of the bidder's unwarranted conduct as amplified as, in the case of Bank Guarantee furnished from banks outside India (i.e. foreign Banks), it should be authenticated and countersigned by any nationalised bank in India by way of back-to-back counter guarantee.

The earnest money shall be denominated in Indian Rupees or for an equivalent amount in foreign currency. The earnest money shall be furnished in one of the following forms:

- (i) Account Payee Demand Draft
- (ii) Banker's Cheque and
- (iii) Bank Guarantee

The demand draft or banker's cheque shall be drawn on any scheduled bank in India or a commercial bank in the country of the bidder, in favour of the "Director, AIIMS Bhopal", payable at Bhopal. In case of bank guarantee, the same is to be provided from any scheduled bank in India or by a commercial bank in the country of the tenderer as per the format specified under Section XIII in these documents.

The earnest money shall be valid for a period of one year from the date of opening of Technical bid. As validity period of Tender will be of 9 months, the EMD shall be valid for 365 days from Techno-Commercial Tender opening date.

Unsuccessful bidders' earnest money will be returned to them without any interest, after expiry of the tender validity period, but not later than thirty days after conclusion of the resultant contract. Successful bidder's earnest money will be returned without any interest, after receipt of performance security from that bidder(s).

Earnest Money is required to protect the purchaser against the risk of the Bidder's conduct, which would warrant the forfeiture of the EMD. Earnest money of a Bidder will be forfeited, if the Bidder withdraws or amends its tender or impairs or derogates from the tender in any respect within the period of validity of its tender or if it comes to notice that the information/documents furnished in its tender is incorrect, false, misleading or forged without prejudice to other rights of the purchaser. The successful bidder's earnest money will be forfeited without prejudice to other rights of Purchaser if it fails to furnish the required performance security within the specified period.

Manage data, compare chromosomes and produce comprehensive reports to ensure optimal chromosomal analysis statistical analysis and cross-case comparison of all the data.
Powerful search tool to filter specific cases and cells by any field and/or subtext. A flexible image gallery for viewing of all case images.
Support multiple languages, Thumbnail images of RAW, Processed Karyotyped/FISH or completed images should be seen in database, The utility to create a report from a freehand combination of chromosomes from any case/s and allows their enhancement with ideograms, comparison etc., generate highly configurable customized reports (Word/PDF). Image processing history should be saved with date and time of each modification.

Software for Karyotyping analysis –
Ability to handle G-,R-,Q- banding, polyploid cells and markers (both bright field and fluorescent metaphases), automatic contour to widen and shrink the chromosome in one click, ability to add missing telomeric regions directly in karyotype view. Multi functional tool which eliminate the need of switching between other tools offering background uniformity correction, automatic segmentation of touching chromosomes, optimized image enhancement, contrast and band sharpness. Ability to annotate and prepare the customised ideograms, Support of ISCN ideogram with 300, 400, 550, 700 and 850 band resolutions. Software should provide estimated band resolution for each metaphase.

FISH Software –
Support for automated filter wheels, Z-stacking, Up to 12 fluorochrome channels per image, Handles metaphase, interphase and tissue samples with two, three or more probes, Extended focus image generation from focus image series, Exporting 3D scanned data for external 3D analysis and visualization. Automatic Image exposure and enhancement, together with the auto-conversion of image sequences at various focal planes.
