

## Hypertension and its implication

Hypertension in society/population is like a tip of iceberg with high prevalence rate. It can quietly damage vital organs or uncontrolled high blood pressure can lead to serious complications. Early diagnosis and proper management reduces the risk of life-threatening complications. This is aimed to provide comprehensive knowledge, skills and attitude development regarding Hypertension and its implication. We would like to sensitize interns, PG students, and nurses regarding Hypertension with an overview on correct measurement of Blood Pressure and early diagnosis to prevent its complication.

## CME Program

Time	Topic	Speaker
10 -11 am	Spot Registration, High Tea followed by Inauguration	----
11:00 to 11:15 am	Introduction & Welcome	Dr Santosh L Wakode Proff.&HOD Physiology, AIIMS Bhopal
11: 20- 11. 40am	Regulation of Blood Pressure	Dr. N.S Verma Professor Physiology KGMU Lucknow
11. 45 am - 12.05 pm	Errors in measurement of Blood Pressure	Dr.Rachna Parashar/Dr. Ruchi Singh Associate Professor Physiology, AIIMS Bhopal
12. 10 - 12. 30pm	Screening and early diagnosis to prevent complication in Hypertension	Dr. Gaurav Khandelwal Associate Professor Cardiology, AIIMS Bhopal
12. 35 - 12. 55 pm	Management of Hypertension in different set of population	Dr. Rajnish Joshi Proff.&HOD General Medicine, AIIMS Bhopal
1.00 - 1.20 pm	Prevention of stroke in Hypertension	Dr. Nirendra Rai Additional Professor Neurology, AIIMS Bhopal
1.25 onwards	Closing Remarks followed by Lunch	Dr. Ragini Shrivastava/Dr. Sunil Chouhan Associate Professor Physiology, AIIMS Bhopal

## Registration

For Registration kindly click the link:

<https://forms.gle/QYVrWvEUTUAXBfo3A>

No registration fees but prior registration is mandatory.

Total 100 participants will be registered for the CME on first come, first serve basis.

Participants have to arrange for their own accommodation.
