 - Introduction (Proposed), Materials & Methods, and focus on why the proposed research question has been taken up and its defense through literature

Certificates of attendance to all participants will only be provided after participating in the entire course

Learn Educate Screen Prevent Cure Support

It gives us great pleasure to invite you for the "V INTERNATIONAL SCHOOL OF ONCOLOGY" at All India Institute of Medical Sciences, Bhopal from 1st -5th August 2022

The burden of cancer is increasing globally. Hence it becomes imperative that all future medicos have clear concepts and fundamental knowledge about various malignancies.

The ISO is multidisciplinary education program consisting of both clinical and interventional master classes / seminars / e-learning activities and hospital visits to address the deficit of concise oncology knowledge.

ISO is committed to facilitate and support dynamic interaction and participation among course attendees and eminent speakers from diverse medical fields with an objective to provide high academic and professional expertise including recent diagnostic and practising techniques in field of oncology. ISO 2022 shall be a golden opportunity for all those who are interested in the field of oncology.

SCHEDULE

- The course will be of five days duration in English language.
- In each session one cancer will be covered in an interactive & integrated fashion. The focus would be student centric and practical oriented.
- Lectures of general oncology i.e. cancer biology, preventive oncology, epidemiology, pain management, palliative care, etc would prefix or suffix every session.
- Two evenings would have social programs and events.
