1. The Committee discussed the issue of procuring OptiMaster™ Microwave Medical Waste Disinfection System, which has been designed, developed and patented by Ministry of Electronics & Information Technology, Govt of India. The Committee went through the documents that have demonstrated this technology to be more cost-effective than the competing technology of autoclaving. The Committee also noted that a rate contract for procurement of this instrument has been undertaken by DGS&D, which was valid till 30th of June 2017. The Committee unanimously recommended the procurement of this instrument for on-site disinfection of laboratory waste and blood bags, contaminated glassware and disposable plastic items, in accordance with Bio-medical Waste Rules 2016.
2. The Committee deliberated on the various available sizes of this instrument and decided that Optimaster™ 60 Ltr model and Optimaster™ 30 Ltr model would be appropriate for use in the Hospital and Medical College respectively. The Committee unanimously recommended the procurement of 1 instrument each of these 2 models with a comprehensive warranty of 7 years at DGS&D rates.
3. It was brought to the notice of the Committee that blue coloured cardboard boxes for discarding glassware were in acute shortage. It was decided that, in view of the urgency, the procurement would be undertaken through GFR 154 (2017) to meet the requirement till supply is obtained through regular tender.
4. Mr Vikram Gupta informed the committee that the site for the construction of Bio-medical Waste Treatment and Storage area has been identified and work would be started in a month's time.
