ADVISORY

Sub.: Advisory regarding prescribing various investigations and their reporting.

1. Battery of investigations taking complete precedence over the clinical acumen overwhelms the capacity of various diagnostic facilities and bring additional financial burden to the patients and hospital. This is especially true for time consuming investigations like USG, CT & MRI for which waiting list extends to many months. Hence, it is advised to all faculty members to observe prudence while prescribing investigations and mentor the Residents/Interns on the same.
2. It is also advised to mention the urgency (reason) while prescribing radiological investigations so that the available slots can be prioritised in the best interest of the patients.
3. Urgency must only be determined, and counter signed by consultant on call/emergency.
4. The diagnostic services departments shall ensure timebound provision of reports / films for the investigations performed, without which there is no utility of performing investigation, especially in emergency hours.
5. Investigations of any kind except for hemogram / blood sugar / renal functions and plain x-ray **should not be done without admission of patient.**
6. Any investigations other than those enumerated above should be prescribed only by the cadre of residents and above.
7. Any free investigation of any type must be countersigned by faculty /SR only.

This is issued with the approval of Executive Director and CEO, AIIMS Bhopal vide File Dispatch No. 53599 dated 26.07.2023 of the office of the Executive Director and CEO, AIIMS Bhopal.
