-NOTIFICATION FOR WORLD CANCER DAY 4.02.2017-

AIIMSBPL/Dean Acad/2017 No. 161 /1.02.2017

Currently, 8.2 million people die from cancer worldwide every year, out of which, 4 million people die prematurely (aged 30 to 69 years), World Cancer Day is the ideal opportunity to spread the word and raise the profile of cancer in people's minds and in the world's media.

World Cancer Day 2017 (Saturday 4 February), the world unites against this disease that knows no borders and represents one of humanity's most pressing and financial concerns. Under the campaign theme '**We can. I can.**' World Cancer Day represents a unique opportunity to draw attention to what can be done to address cancer, save millions of avoidable deaths and, in turn, support global economic growth and development.

On this occasion, as a part of our fight against cancer through advocacy & health promotion, we invite you to attend a guest lecture:

**"Cancer- Prevention better than cure"**

**LT-2, 11.00 AM, 4th Feb 2017 Saturday**

by

**Prof Dinesh Kumar Pal, Head, Community Medicine, Gandhi Medical College, Bhopal.**
