Sub: Rebuttal to Misleading Reports by a section of media

A section of the media is wrongly reporting that a guard of the Oncology ward has tested COVID positive. AIIMS, Bhopal strongly refutes this news. So far only two staff from AIIMS have tested COVID positive. A sanitation worker posted in the COVID ward was found to be COVID positive on 12th April. She has been admitted in COVID ward and is being provided treatment as per standard protocol. One guard on duty outside the COVID ward tested positive for COVID on 14th April, and he is also currently admitted and being treated. These cases could be identified only because of the strict adherence to screening and testing guidelines by AIIMS, Bhopal

Released on: 15th April, 2020
