Dr. Debasis Biswas
Professor and Head
Department of Microbiology

(i) The indented goods (Tissue lyser) are manufactured by M/s ... **Qiagen**

(ii) No other make or model is acceptable for the following reasons:

It is in the knowledge of the user department that only M/s Qiagen firm is the manufacturer of the required goods with following specification:

1. The system should offer processing of a wide range of animal tissues, which can be used to disrupt samples to release high-quality DNA, RNA and protein for subsequent purification and analysis.
2. Should offer simultaneous disruption of up to 24 samples through high-speed shaking in plastic tubes with steel/tungsten/glass beads.
3. Processing of 24 samples should take 2-4 minutes.
4. Should have flexibility of effective disruption and homogenization using liquid nitrogen or in frozen condition. Reproducible results with difficult-to-lyse tissues.
5. Should have provision for complete isolation & sealing of samples while processing so that there is no chance of cross contamination.
6. Accessories to be included:
 - a. One Adapter set for disruption of up to 24 samples
 - b. Four packs (500/pk) of 2 ml microcentrifuge tubes for sample processing
 - c. Two packs (100/pk) of compatible Stainless Steel beads (5 mm)
7. System should have the Digital settings and control of disruption time (10 seconds - 99 minutes) and vibration frequency (3-50 Hz)

(iii) Concurrence of finance wing to the proposal vide:

(iv) Approval of the competent authority vide:

 21/1/19

(Signature with date and designation of the indenting officer)
